The Suncor Sarnia refinery will begin a period of planned maintenance beginning on September 18 that is expected to last approximately 8 weeks.

As part of this work, there may be periods of visible flaring and increased noise. However, we have plans in place to minimize the potential for both these disruptions. We will be conducting noise monitoring around the perimeter of our site throughout the duration of the work.

To help manage traffic flow during peak traffic periods (shift changes), a uniformed police officer will be directing traffic at our Turnaround parking lot on Vidal Street, ensuring all vehicles exit to the north. Also, in response to community concerns over increased traffic during turnarounds, we use a radar sign at the River Rd. curve to promote awareness among motorists of their speed.

ABORIGINAL FIREFIGHTERS
ASSOCIATION OF CANADA

ASSOCIATION DES POMPIERS
AUTOCHTONES DU CANADA

In a fire, seconds count. Seconds can mean the difference between residents of our communities escaping safely from a fire or having their lives end in tragedy. Sometimes there can be as little as two minutes to get out before it is too late. **That's why this year's Fire Prevention Week theme: "Every Second Counts: Plan 2 Ways Out!" is so important. It reinforces why everyone needs to have an escape plan.**

During Fire Prevention Week, which runs from October 8 to 14, 2017, we encourage students in your community to participate in our Fire Safety Multimedia and Poster Contest.

Visit the [contest](http://www.afac-acpi.ca/Poster.html) page at (<http://www.afac-acpi.ca/Poster.html>) to find out how to participate.

During Fire Prevention Week, which runs from October 8 to 14, 2017, we encourage students in your community to participate in our Fire Safety Multimedia and Poster Contest.

All full-time students from Pre-School to Grade 12 attending a Band or Federally operated school are eligible to enter the contest.

Entries are judged on creativity, fire safety knowledge, use of the theme, and artistic quality.

AFAC distributes the entries to our regional organizations who select the artwork that will go forward to the National Contest in February 2018.

Prizes are awarded to up to four entries in each of the five categories.

In addition, the first prize winners from each category receive a computer for their school!

Students are welcome to work individually, collaborate in small groups, or even work together as a whole class. However, due to limited budgets we may only be able to award one prize per entry.

*If you have any questions please
visit our website at
www.afac-acpi.ca,
email info@afac-acpi.ca,
or telephone 1(250) 267-2579.*

*For more information on this
year's theme and to download fire
prevention teaching resources visit
www.fpw.org*

*We look forward to receiving your
community's submissions!*

How to participate:

Students create artwork on this year's fire safety theme "Every Second Counts: Plan 2 ways out!"

Be sure to use the labels in this package on the back of the artwork so that we know who to award prizes to.

Send your artwork to:

Aboriginal Firefighters Association of Canada,
#7 - 3405 Mountain House Road, Williams Lake, BC V2G 5L5

It is ok to fold your posters for mailing, smaller envelopes cost less to send.

You can submit digital entries by email to info@afac-acpi.ca

Entries must be received by Friday November 10, 2017

Poster and contest forms are available at the Band Office and Community Centre.

HEROIN WITH FENTANYL

Fentanyl-laced heroin has been found locally. Sold under the name "Purple" or "Purp".

Be safer

- Have naloxone (NARCAN®) ready.
- Use with other people, but NOT at the exact same time. Never use drugs alone.
- Start with smaller amounts than usual.
- An overdose occurs quickly.
- **Call 911** if you suspect the person is overdosing.
- Stay with the person until help arrives.

Overdose symptoms include:

- breathing slower
- sleepiness
- disorientation
- pinpoint pupils
- clammy skin

What is fentanyl?

Fentanyl is a powerful synthetic opioid pain reliever that is similar to morphine and is estimated to be 50 to 100 times stronger.

The facts

- Fentanyl has been mixed with other drugs such as heroin and cocaine.
- It has been used in tablets that look like prescription drugs.
- Overdoses happen when people are not aware they are consuming fentanyl.
- It has no smell or taste. You may not know that your drug has fentanyl.
- It comes in many forms: powder, pill, liquid and blotter.
- 2 milligrams of pure fentanyl (the size of about 4 grains of salt) is enough to kill an average adult.

For a free naloxone kit, contact Réseau ACCESS Network at 705.688.0500 or ask your local pharmacist.

REPORT A SPILL

If you see visible emissions, spills in waterways or waste being improperly handled, report your concerns to the Ministry of the Environment and Climate Change (MOECC). Reporting spills and pollution to the MOECC and other government regulators helps create a public record of an issue and provides the evidence needed for a regulator to act.

Inform MOECC that you want to report a spill, and ensure that the agent on the phone is registering the information as a formal report.

Be prepared to indicate the following with regards to emission

- Time of day and date
- Wind direction if an odour, noise or air emission
- Location of spill or emission & your location (e.g. if you see air emissions, identify the source if you can and your location when you saw it)
- You will be asked to provide personal contact information, but you can report anonymously if you choose
- You will be asked to explain how you have been *adversely effected* by the odour/noise.
