Update to Community regarding INEOS Benzene Removal Plan

Attention Aamjiwnaang Members:

INEOS Styrolutions submitted their plan to begin de-inventory and removal of bulk benzene to Aamjiwnaang First Nation on July 24, 2024. The plan includes two phases and approval was received for Part A from Ministry of the Environment Conservation and Parks on July 25th, 2024. INEOS incorporated recommendations provided by Aamjiwnaang.

Part A of the plan addresses bulk benzene above the internal floating roof. INEOS refers to this part of the plan as normal operations and it is considered a low-risk activity.

The effort will minimize the elevated benzene emissions.

Communication with Aamjiwnaang involves:

Tank movements/transfers associated with Part A of the plan will be communicated and discussed in daily communications with Aamjiwnaang.

A Community information and update meeting to discuss the plan is scheduled for August 8th at 6:00 pm at Maawn Doosh Gumig.

The Ministry of the Environment Conservation and Parks have approved this plan.

If you require more information, please contact the Environment Department at 519-336-8410.

Miigwetch,

Aamjiwnaang Band Council
